TECHNICAL SPECIFICATION OF GLODOOR CRINKLE PVC DOOR

Features :

- These Doors can be used anywhere, as a Main Doors, Bedroom Doors, etc.
- These Doors are made from the Hot Pressed Plain Flush Doors with MR Glue. Here Flush Door is made from Solid Pine Wood Seasoned and Treated to protect from any borer and powder attack with 1.5 inches (Approx.) Frame, Covering 6 inches Pine Wood Filler around the Frame and Pre Laminated Particle Board used as a Filler Material in Centre, which ignores Corrugation Effect and assist in making Smooth Plain Face.
- These Flush Doors are Coated with Rigid PVC Imported from Germany with Crinkle Effect on it, which can be realized by yours if you touch the Small Sample of Crinkle PVC Sticked in our Catalogue. The most key advantage is that, the Crinkle PVC is Scratch Resistance.
- Also available the Edge Bending Strips of the same Colour of that of the Door, along with the Door Supplied which you can stick with the help of any Rubber Adhesive on all the Four Edges, which will give a One Piece Look to your Door.
- Available in all the Sizes demanded upto the Maximum of 84 inches x 39 inches and can be Cutted upto 1 inch from each side considering the four sides.
- Thickness available is 30mm and may vary as per demand.
- The Door is 100% Maintenance free as No Polish / Paints required.
- Available is 3 Different Colours – Beach Wood, Teak Wood & Walnut respectively which matches with almost all the Interiors.
- Separate Packing Available for each Door.
